Date: 24th February 2016

Diversey Consulting

An **approved status** signals that you have been successful in the accreditation process and are approved to provide services at selected properties throughout the UK and Ireland. Upon being approved, you are placed on an approved suppliers' list which serves as a list of recommended suppliers when hotels engage with prospective customers, where the customer is free to select its preferred vendor from the list. Approved supplier status does not bring with it or include any guarantee whatsoever that the supplier will be engaged or used by any or all hotels or indeed at all.
